Manual Dependent Up and Down Vertical Sliding Writing Board System.

A Manual Dependent Up and Down Vertical Sliding Writing Board System allows for the smooth vertical movement of Writing Boards through manual operation. A Chain pulley counterweight mechanism controls the movement, ensuring stability and alignment. Two Writing boards are dependent each other and move on multi track Vertical Rail Sliding System. When one board is pulled down manually than the other board goes up. After fully written on one board, it can be pushed upwards and the lecturer can write on the second board which comes down. Structure made with heavy Aluminium frame with Plastic corner available in Silver Matte Brush Finish & Brown Glossy colour with wall mounting device.

- Key Features :
- **Manual Operation:** No motors or electricity required, offering a simple, energy-efficient solution.
 - **Precise Movement:** Dependent movement ensures the Writing Boards moves straight and smoothly. Ideal for Classrooms, offices, or other environments where height-adjustable Writing boards are needed, this system offers reliable performance and ease of use. **Writing Surfaces Available** :- Ceramic Steel, Magnetic & Non Magnetic White & Green.

All Size Available and can be customized also. Please Call or E-mail us for Sizes and any other Information.

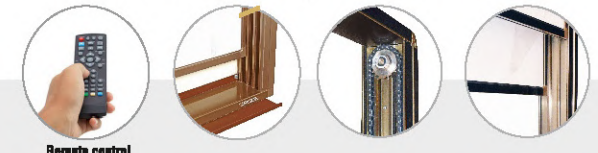

Motorized Dependent Up and Down Vertical Sliding Writing Board System

A Motorized Dependent Up and Down Vertical Sliding Writing Board System provides automated vertical movement for Writing Boards. A Chain pulley counterweight mechanism to Powered by an Electric Motor, ensures smooth and precise up-and-down motion along a guided path. Two Writing boards are dependent each other and move on multi track Vertical Rail Sliding System. When one board is brought down by remote than the other board goes up. After fully written on one board, it can be automatically moved upwards by operating the remote and the lecturer can write on the second board. Structure made with heavy Aluminium frame with Plastic corner available in Silver Matte Brush Finish & Brown Glossy colour with wall mounting device.

- Key Features:
- **Motorized Control:** Allows easy adjustment with a remote.
 - **Smooth and Stable Movement:** The Chain Pulley mechanism ensures precise alignment.
 - **Safety Features:** Includes sensors and locking systems to prevent accidents. This system is ideal for modern work spaces, conference rooms, and educational Institutes, offering convenience, flexibility, and enhanced functionality for dynamic Writing Board needs. **Writing Surfaces Available** :- Ceramic Steel, Magnetic & Non Magnetic White & Green.

All Size Available and can be customized also. Please Call or E-mail us for Sizes and any other Information.

A better choice Across the Board ! Get the maximum use out of your presentation and instruction space.

10	SCREW & RAWL PLUG FOR BRACKET	4 SET

4 NOS. SCREWS WITH RAWL PLUGS FOR BOARD

2 NOS. SCREWS WITH RAWL PLUGS FOR BRACKET

Sliding Glass Board consist of the following Parts/Components.

1. Board in assembled condition. (Without glass and lock)
2. Left Glass (front) with hole for lock and screws with two glass runners.
3. Right Glass (back) with two glass runners.
4. Push Lock with key.
5. Lock Plate
6. Two numbers screws to fix lock plate with locks.
7. Allen keys.
8. Fixing Screws and Rawl Plugs.
9. Two numbers "L" Type wall mounting brackets.

Assembly Procedure.

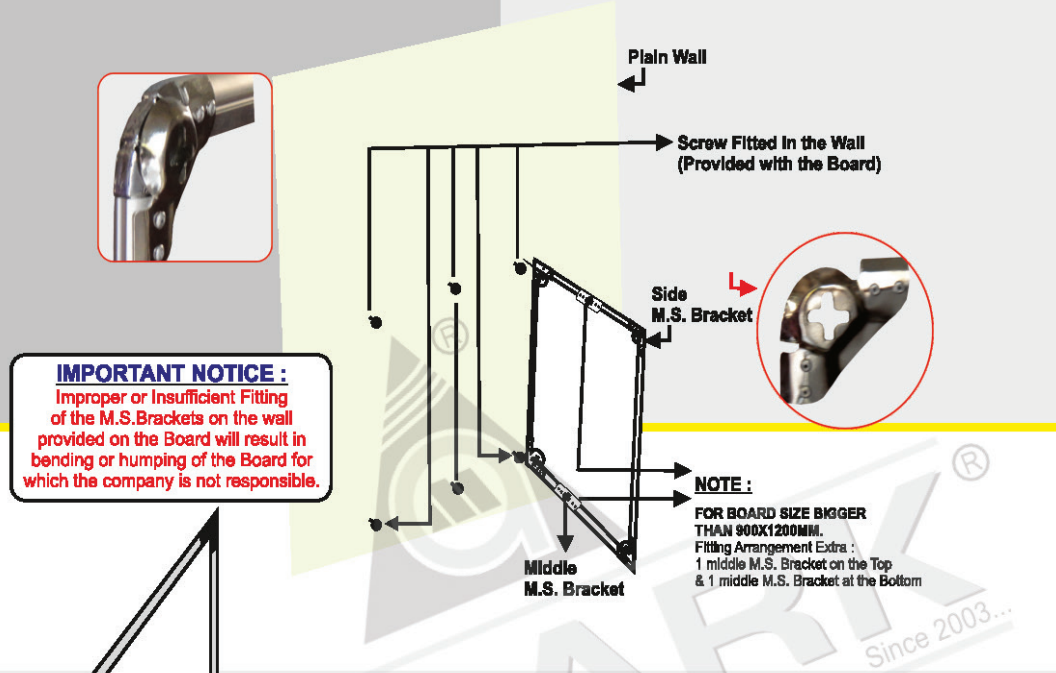

Open carton and take out all the items as listed above.

Steps of Assembly

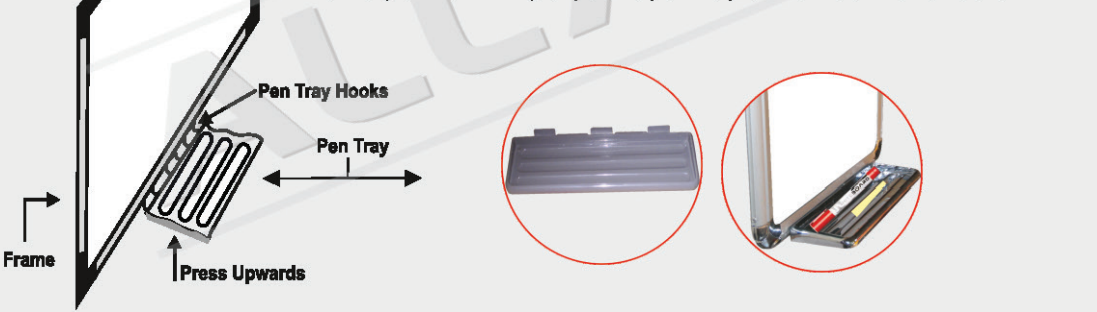

- STEP 1:** First fix the board without glass on the wall with four screws and rawl plugs. Take left glass and assemble lock and lock plate by pushing lock from back side of the glass. Place lock plate on projected portion of the lock from front. Put two screws from front and fasten it with Allen Keys
- STEP 2:** HOLD RIGHT glass in both the hands and place it on the back channel top side and then on bottom side. Glass size is kept in such a way that it can be easily placed in the back channel.
- STEP 3:** HOLD LEFT glass in both the hands and first place it in front channel top side and then on bottom side.
- STEP 4:** MARK the bottom line of the board and fix the two ("L" Bracket) support so that board can easily be mounted on the "L" Brackets & then fix the screen provided on the bottom frame.
- STEP 5:** Place board on wall after screws and brackets are fixed.

DRY ERASE MARKERS / CHALKS

All dry marker can be used on White Writing Boards but for best performance use solvent based markers.

NOTE: Some type of chalk are incompatible with chalk boards and may scratch the surface due to rough particles.

WHITE BOARDS / CHALK BOARDS

- A. Before using your Magnetic White / Chalk Board for the first time remove the protective films from the surface.
- B. Spray the Board with any Dry Board cleaner and wipe with a soft cloth or duster.
- C. Rinse with clear water. This step is simple but very important.
- D. Wipe with Dry Cloth.

EVERY DAY CARE

If your Board is used daily full cleaning should be done regularly. More through cleaning may be required if texts are left on the board for more than 2 days

Periodic cleaning is recommended for problem free longevity of this Board.
A clean Board is a well prepared Board and a well prepared Board gives a well presented presentation.

DO NOT USE PERMANENT MARKERS

PERMANENT MARKERS INK CAN BE REMOVED BY ISOPROPYL ALCOHOL

How to Clean a Dry Erase Board

You can actually use a dry erase marker to remove permanent marker from your whiteboard!
This is a quick and easy trick to remove stains from Sharpies, pens, and other permanent writing tools.

If someone has accidentally used a permanent marker on your board, just follow these steps:

- Use a fresh dry erase marker to write over top of the stains, covering them completely.
- Wait a few seconds for the marker to dry.
- Wipe away all marks with a cloth or felt eraser.
- The dry erase ink will lift away the permanent ink.
- Other Methods to Clean a Whiteboard.
- Dry Erase marker writing on whiteboard.

If you need to clean your dry erase board in a hurry, there are two other methods you can use:

- Household Products
- Hand Sanitizer
- Rubbing Alcohol
- Non-acetone Nail Polish remover
- Peroxide
- Hair spray
- Vinegar
- WD-40

Follow these instructions using any of the liquid solvents above:

- Pour a small amount of liquid onto a sponge or soft cloth
- Wipe the entire surface of the board
- Wipe the board a second time using only water
- Dry the board completely
- Repeat the process if necessary
- Whiteboard Cleaner
- Cleaning your dry erase board with a whiteboard cleaner every 2 or 3 days will help to keep it looking its best.
- Cleaners come in spray bottles or convenient disposable wipes. Regularly cleaning the board ensures that your dry erase ink doesn't sit on the board for too long, which can cause stains.

You don't have to live with a messy whiteboard. Keeping the board clean ensures that your notes are legible and your ideas are well-communicated. Use any of our ideas to wipe your board clean for your next presentation.
